## Objective

Ambitious and self-driven B.Tech student in Artificial Intelligence & Data Science at Reva University. Strong foundation in Python, version control, and data science libraries. Passionate about machine learning, aiming to leverage practical coding skills in AI/ML research and impactful data science roles.

## Education

### Reva University, Bengaluru

B.Tech in Artificial Intelligence & Data Science | Sep 2025 – Present

### Class 12 (CBSE)

Score: 90%

### Class 10

Score: 92%

## Technical Skills

**Programming Languages:** Python, JavaScript, C

**Libraries & Frameworks:** Pandas, Matplotlib, Flask, Streamlit, FastAPI

**Tools & Technologies:** Git, GitHub, VS Code

**Interests:** AI/ML, Data Science, Practical Coding Projects

## Technical Projects

- Developed Python-based applications involving data processing, SQL integration, and automation.
- Built, deployed, and maintained web applications using Flask, Streamlit, Vercel, Render, and Supabase.
- Utilized Git and GitHub for version control, project management, and collaborative development.
- Configured and self-hosted Large Language Models (LLMs) on local hardware, creating private AI services accessible across devices on a personal network.
- Exploring Retrieval-Augmented Generation (RAG), machine learning, and modern AI application architectures.
- Created data visualizations and analytical tools using Matplotlib and Python ecosystems.
